Jandy® Aqua Accents™ add a splash of liquid sophistication.

From the drama of a spouting lion's head to the sophisticated elegance of Neptune, Aqua Accents bring a refined beauty to every pool and spa they adorn. The gentle sound of water splashing from these stately medallions transforms a pool into a classical fountain.

Whether they are metal-plated sconces or stone-like rosettes, Aqua Accents promise a luxurious touch that can be easily added to any pool or spa. Imagine the ornament's rich patina intensifying with each passing year, as it glimmers in the mid-day sun or reflects the romance of evening lighting, all accompanied by the soothing melody of falling water.

- Aqua Accents are available in four finishes: Natural Stone, Bronze, Copper and Silver Nickel.
- The metal-plated finishes acquire a rich and beautiful patina over time.
- Aqua Accents are made from a blended, lightweight polymer that will not crack or discolor.

Jandy Aqua Accents add distinguished beauty to every pool
